

Calm Air is a critical service provider for Northern Manitoba and Nunavut, delivering reliable scheduled passenger service to communities that depend on air access year-round. Beyond passenger flights, Calm Air plays an essential role in supplying the North, moving millions of pounds of cargo each year, including food, medical supplies, and time-sensitive freight.

The airline also supports communities and organizations by offering charter flights across Canada and the United States. With a fleet purpose-built for Arctic operations, Calm Air safely and consistently operates in some of the country's most challenging environments, ensuring northern communities stay connected and supported.
